BLOODFLY

Riding across Europe since 2011, BTSTYX is inspired by a dark and violent musical universe.

At the crossroads between Hardcore, Metal & Thrash crossover, the French quintet has unleashed the crowds on more than 200 gigs, alongside renowned bands such as: Terror, First blood, Nasty, Malevolence, Cold Hard Truth, Broken Teeth, Alea Jacta Est...

Following the release of his new studio effort: "SENTENCE" (recorded & produced by Christian Donaldson: Despised Icon, Get The Shot, Cryptopsy...), the french juggernaut expresses a manifest, authentic, incisive desire to open minds to the evils that have been gnawing away for too long a most decadent modern society.

*"Is our history an eternal beginning?"
That's the challenge of BTSTYX: Embody more than the flapping of a butterfly wing. Breathe the storm of change!*

Hit the road without counting the distance that separates the gig of tonight to the next, support each local scene so that Hardcore music exists today and tomorrow, rally the people to defend respect for difference, invite everyone to think about the drift of the values of our contemporary society so that our reality of today does not become our new Hell of tomorrow.

Armed with a hardened line-up, BTSTYX drives the point by highlighting with « SENTENCE » a maddest torrent of live energy!

(Not only) FOR FANS OF: All Out War, Harm's Way, Sworn Enemy, Trapped Under Ice, Knocked Loose, Cancer Bats, Arkangel...
